Taste Europe: Exploring Food and Traditions

In this project, pupils from different European countries explore food and eating traditions as part of everyday culture. They exchange information about typical dishes, recipes and food habits and work together in international teams using digital tools. Through collaboration, pupils compare similarities and differences between their food cultures and create a shared digital product that reflects their findings.

we are introducing ourselves"**

Hi Diego,

How are you? I hope you're doing well. I'm Alex and I am from St. Marein im Mürtztall, a small town in Austria. I'm 12 years old and I like co-op computer games, especially Rivals. This is a very cool shooter in Roblox. You can play 1v1 and 2v2. You can also unlock new weapons and weapon skins. I'd really like to have a 1v1 against you sometime. If you have Snapchat, write your name in your email. I also like Super Mario and Pokémon. I also like all Nintendo games. What's your favorite hobby? My favorite food is pizza and doner kebab, but I don't like Hawaiian pizza; it's so disgusting. What's your favorite food? My favorite country is Croatia because it's so beautiful, but I also like Italy because of the food.

I hope to hear from you soon,

Yours,

Alex
